STOP THE SPREAD!

Individual ULV Sprayer

- Premium quality, lightweight, easy to use
- Extremely effective ultra-fine ULV mist
- Works with any water-base liquid disinfectant
- Operates up to 60 minutes on a single charge
- Continuous electronic trigger with a rechargeable battery
- Charger with USB connection can be used on your laptop
- Ideal for your personal protection anywhere you go

Ultra-Low Volume (ULV) portable particle sprayer for use with disinfectants, cleaning products etc. Especially designed for our Puroxi OB or Nano-Silver disinfectant solutions.

Broad spectrum: ultra-fine mist is effective on almost all varieties of bacteria, viruses, fungi.

Our water-based disinfectant solutions are organic and safe to use. Bystanders can enter the room immediately after the product has been applied, with zero re-entry time.

Ideal for use in homes, offices, clinics, hotels, public transportation, and more.

Our Individual ULV particle sprayer safely disinfects any personal area almost instantly. No-touch application is extremely effective providing huge savings in time and consumables, compared to conventional spray & wipe methods. **Just spray and go!**

Benefits of ULV Disinfection

Compared to traditional disinfection methods, this efficient lightweight design provides a healthier, more hygienic environment in a fraction of the time.

Convenient size is perfect for travelling.

SPRAYERS

IDEAL FOR ...

All around the Home, Hotel Rooms, Waiting Rooms, Public Transportation, Schools, Offices, Gyms, Medical & Dental Clinics, and much more.

~ Indoor or Outdoor ~

Disinfectant Solutions:

Puroxi OB Organically certified (OMRI) 3% solution can be safely sprayed on foods (produce, meat, etc.) then rinsed. Certifications: EPA (Environmental Protection Agency), GRAS (Generally Recognized As Safe). Also available in NSF Certification.

Our Nano-Silver anti-bacterial disinfectant solution has been tested and certified, by independent labs, to **kill 99.9%** of **Coronavirus, E-coli, Staphylococcus aureus, Candida albicans, H1N1, H3N2**, and many other infectious pathogens, bacteria, and viruses

Specifications
